

WHAT IS MY JOB HERE?

Many people asked me: "***What is my job here?***" Here it is, what you should be doing after you sign in SFI:

Please read these points carefully and APPLY them today:

- * SFI is a long term business. You do the work now and make good money for years to come. So, it is the best business you can start with.
- * In SFI, Versa Points (VPs) means shares. The more VPs you have, the more shares you'll have in SFI, the much MONEY you'll make.
- * To succeed with SFI you need to get as many VPs as you can, and as many quality downline (PSA and CSA) as you can.
- * To start to make money with SFI, you MUST be at least EA. You could be an EA by collecting 1500 VPs per month. You can collect these VPs from the "To-Do List" page or from the "VP Ledger" page.
- * The easy way to collect 1500 VPs every month is by setting a standing order for 1500 VPs or more. For example: when you get the IAHBE membership or 125 TC as standing order - this assures you get 1500 VPs every month. This way you will be at least EA every month.
- * To make much money at SFI, you need to be a team leader: Bronze, Silver, Gold or Platinum. Team leader get matching VPs (shares) up to 12 levels deep. Team leaders can make up to \$14,000 per month in SFI if they build a strong team under them.
- * To build a strong team under you (downline), you need to promote your SFI affiliate link in many advertising sites. Important, if you get some downline at a certain day and you were one of the top 20 enrollers for that day, SFI will reward you by giving you 2 VPs per each downline for this day. Example: assume you get 100 PSA today, and you were be one of the top 20 enrollers for this day, SFI will give you $(100 \times 2VPs) = 200$ VPs. You can collect up to 3000 VPs every month using this method.
- * When you start to get your downline, teach them the above steps. This way, you change them into team leader like you are.
- * Encourage your downline (PSA and CSA) by re-assigning some of your PSA under them.
- * You can give them TCredits of yours if they upgrade their levels in to EA or team leader. This will make them more active.
- * Use and teach your downline how can they use the SFI penny auction (Pricebender). Remember when you use the SFI penny auction, every TCredit you spend will give you 1 VP. You can get up to 500 VPs every month using this way.
- * If you have some physical products you don't need, you can sell them in your SFI TConnect store at: <https://www.tripleclicks.com/TConnectMbr.php> This is something like garage sale. You make money and get VPs this way. You'll like it.

* You can sell digital products also in your SFI TConnect and make good money. Make money and get more VPs, too.

* If you don't have products to sell, search for some good products which people really want, and get your affiliate link for these products, then promote these products here and there. This way you could earn money PLUS get huge VPs.

* NOTE: By opening your own ECA, the 100 VPs for referring ECA gets your sponsor - not you! So don't count on those points for your status. When your PSAs open their ECAs, you will get 100 VPs for each.

* Teach your downline ALL the above steps. Feel free to copy/paste this message and send it to your downline.

* The last important tip is: NEVER EVER GIVE UP. You could be very close to your success and you don't know.

I'm sure if you apply what I told you today, you'll make good money with SFI.

I wish for you more and more success in SFI.
