

What can we really earn here?

By Scott Liang

What seems to be most disheartening about trying to earn money in SFI, from a network marketing point of view, is how most people simply give up trying to build a team.

If people would only take the time to understand how much can be made in this program, maybe they would not be so quick to fly off to every other new offer that appears on the internet.

The power of duplication is the key; and that key opens the door to matching VP, which is where your SFI earnings can explode. Here is an example of what you can start to earn.

Find 5 people who will earn EA2 status every month, as your PSA's. Just 5. Not 5 per month for now, just 5 total. And you concentrate on helping them learn the business by answering all their questions and doing whatever it takes to keep them motivated.

Now, let's say you have managed to show those 5 people the value in having a standing order of 125 TCredits every month. That costs them \$36.25. Each of those people have now earned 1500 sales VP and 100 action VP. For now, let's just say that for each of these 5 people, they do nothing else to earn any more VP. Just for now.

Here is what you would earn from those 5 EA2 PSA's, as their sponsor. You would earn \$7.95 from each of them as a direct commission on their purchase. That is a total of \$39.75 paid to you every month. You also earn 100 action VP from each one of them being an EA2.

Now, let's say you have the same standing order of 125 TCredits. You earn 1500 sales VP and 100 action VP. Knowing the importance of being a Team Leader, you do what it necessary to reach BTL status. Which is: Completing all your daily, weekly, and monthly tasks on your To Do List. Let's say that averages out to 500 action VP. Most months are more, but let's just use that as an average.

You now have 1500 sales VP and 600 action VP. Now take those 125 TCredits and bid on a Pricebenders auction, enter the Time Machine contest, or the Pick the Price contest, or vote for your favourite TC Music song. Any way to earn 125 more action VP. Now you have 725 action VP for the month. As well, each one of your 5 PSA's that made EA2 earned you 100VP, so now you have 1225 action VP.

With each bid on Pricebenders, Time Machine, Pick the Price, or TC Music, you earn 5 MRP minimum, for a total of 625 MRP. Take 378 MRP and buy 3 single TCredits, which will earn you 306 sales VP

Now you have 1806 sales VP and 1225 actions VP, for a total of 3031VP. Making you a Bronze Team Leader!

Now you get access to Matching VP from the TripleClicks Executive Pool. And based on this small example, this is what you might earn. You get 3031VP from your actions, and 1600VP from each one of your PSA's who are EA2. Their total is 8000VP. Added to your VP, that is 11031VP. Based on last months' commissions, that is a payout to you of \$4.80.

Now, I know \$4.80 doesn't sound like much, but you will have to look at the bigger picture as your team grows, and they duplicate what you have shown them.

For yourself, this is what you have made as a profit for the month.

You earned \$39.75 in direct commissions, and \$4.80 in Matching VP, for a total of \$44.55. You paid out \$36.25 for your standing order. Your net profit is \$8.30.

OK, maybe not so much, but this is where the power of duplication in network marketing really works.

Let's say each one of your 5 PSA's who are EA2 get 5 PSA's themselves who make EA2 every month. That is another 25 people in your downline. And if all they do is have a standing order of 1500VP, each one of those 25 people add another 1600VP to your matching VP total.

So, in my example, let's add the VP of those 25 people to your matching VP. $25 * 1600$ is 40,000VP. You would have a total of 51,031 VP, and you would earn \$22.23.

Now, let's suppose each one of your learned the value of being a BTL, and became one themselves. So each of them earned at least 3031VP every month. That would give you an extra 250VP on your personal VP for a total of 3281VP (each PSA who is a BLT earns you 150VP in a month).

Now, your VP total for the TripleClicks Pool is at 58,436, and your total is \$25.46 for matching VP.

You now have 30 affiliates in your downline; 5 PSA and 25 generation 2. Now, let's say each of your generation 2 do the same thing, and get 5 PSA's each who reach EA2.

That is another 125 people in your downline, and adds 200,000 VP to your matching VP total. Your matching VP total is 258,436, and that could be about \$112.59 in earnings for matching VP; and you are still only spending \$36.25 per month.

As a BTL, you can earn matching VP up to 6 levels. So now, let's say your Generation 3 of 125 people each get 5 PSA's who are EA2. That adds 625 people to your downline, and 1,000,000 matching VP.

Now your matching VP earnings can be \$548.28. You now have active PSA's down 4 levels, you are still a BTL because you only have 5 active PSA's who are EA2, but the power of duplication is now really working.

OK. Let's get all your Generation 4 people 5 PSA's who are EA2. That adds 3125 people to your downline, and you get an additional 5,000,000 matching VP. Now you have the potential of earning \$2726.73 in matching VP earnings.

Finally, let's get all of your Generation 5 people to get 5 PSA's each who are EA2. That adds 15,625 people to your downline, and 25,000,000 matching VP. You could earn \$13,618.97 from matching VP. All in one month!!

And you are still a BTL, and spending only \$36.25 per month.

This is all based on all of your generations having 1 standing order for 125 TCredits and earning 1600VP each month, becoming EA2. And your 5 PSA's becoming BTL too, although that doesn't really matter all that much, as long as they are EA2.

Do you see the potential? Of just having 5 PSA's at reaching EA2, and teaching them how to do the same thing?

This isn't rocket science. It isn't that confusing. And you don't have to sponsor thousands of people yourself. (But if you can and they all do the same thing.....WOW!)

And if your downline really start to do something and become Team Leaders, again, WOW!

This is just a basic idea of how network marketing can really work. And all it really takes for each of us to know 5 people, and they know 5 people, and so on.

Not to mention all the great aspects of TripleClicks, with the games and the ECA program.

An investment of \$36.25 per month can lead all of us to financial freedom.

Do you think we can? I do.
