On the Marketing Aids page, choose SFI and choose banners.

Na Marketing Aids stranici, izaberite SFI i izaberite baneri.

Choose the banner that you like (I suggest the horisontal one) and click on the link Preview.

Izaberite baner koji vam se sviđa (preporučujem neki horizontalni) i kliknite na link Preview.

From the Preview window, copy the HTML code.

Iz Preview prozorčića, kopirajte HTML kod.

Now, go back to your blog. In the Blog Description paste the copied HTML code.

Sada, vratite se na vaš blog. U Opis bloga (Blog Description) nalepite kopirani HTML kod.

Click on the button Save Arrangements.

Kliknite na dugme Save Arrangements.

Now, click on the button View blog. Your blog will open in a new window. Copy the link of your blog. If you see the banner in the Header of your blog, you have done properly the previous steps.

Sada, kliknite na dugme View blog. Vaš će se blog otvoriti u novom prozoru. Kopirajte link vašeg bloga. Ako vidite baner u zaglavlju vašeg bloga, dobro ste odradili prethodne korake.
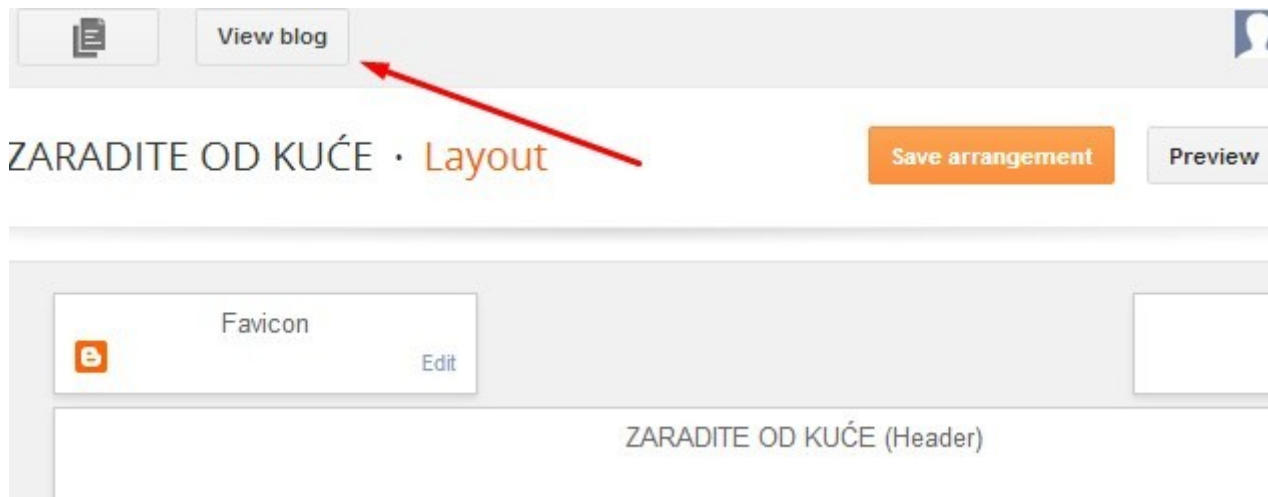

Go to your SFI Home page and find the task Installing a TripleClicks banner... When that page opens, just paste your link in the place provided for it and click Submit. You will get 100 VPs in few minutes if everything is done properly.

Idite na vašu SFI stranicu i nađite zadatak Installing a TripleClicks banner... Kada se ta stranica otvori, samo nalepite vaš link na mestu koje je za to predviđeno i kliknite Submit. Dobićete 100 VP za par minuta ako je sve urađeno pravilno.
